

## LIGHT JET Citation CJ3 (N51EM)

The CJ3 offers excellent performance for a light cabin aircraft with surprising endurance that allows for longer flights than most other aircraft in its class. With a short landing distance and low fuel burn, the CJ3 is perfect for quick getaways or a trip down to the islands. Skystream Jet renovated the interior and exterior in 2014 equipping the aircraft with many amenities, including WiFi, to ensure an enjoyable experience and comfortable ride.
