

LIGHT JET Phenom 100 (N148MW)

The Embraer Phenom 100 is a very light private jet with next generation technology, incorporating style, comfort, performance, and reliability. The 100 also claims to contain the most highly intuitive and professional aircraft cockpit available in the entry-level jet market. With a range of 1100 nm, and a high speed cruise of 371 knots, the Phenom trumps all close competitors. For quick getaways and traveling short distances, the Phenom 100 is a great value.
